Billy Blockley – Junior Fiesta Championship

Billy Blockley, a Year 10 student here at BBG, participated in the Junior Fiesta Championship, racing against 21 other opponents last weekend (beginning 6th May), and leaving the racetrack in 9th place!

Reporter:
Dexter
Hughes

The Junior Fiesta Championship is a circuit racing series for 14–17-year-old racing enthusiasts, first conceived in 2012 – it is challenging, exhilarating, and allows teens to test themselves against others and potentially win.

On Thursday morning, in form time, I interviewed Billy about the race.

How did you train? - “I went with my group to some racetracks in Blyton, and on Friday practised in Snetterton, in Norwich.”

What made you want to do the race? - “I was always interested in racing,” he told me, “I did autograss at first, which was on an oval track, but I thought to move on to circuit tracks (which were more challenging). I always loved racing cars, and I joined the race for the hobby, and found that I enjoyed it. I also play rugby in my spare time.”

What were you thinking when you started the race? - “I was trying to focus, to be aware, and to watch what I was doing – having as much speed as possible, too.”

How did you sign up? - “Last season, I called a few teams to join. I eventually called the 20Ten team tested in Blyton and decided I would go with them.”

Have you done any races like this before? - “Yes. We went to Croft last weekend – I preferred the track, the track qualifying was good, and so was its speed. In the first race, I came 16th, and in the second, I came 9th. There were quite a few incidents; crashes and collisions, that sort of thing.”

Billy Blockley – Junior Fiesta Championship

Are you doing any more races in the future? - “I’m off to Oulton Park on June 10th, and I’ll be training and testing for the race on 26th May, at Donnington Park circuit.”

What was your main motivation? - “Hopefully improving through the season, getting better and practising.”

9th out of 22 is brilliant. How did you feel when you heard what place you were in?
- I thought that the weekend had gone alright! We’d shown improvement, I thought, and we could get up there if we want to.

Reporter:
Dexter
Hughes

BRSCC FIESTA JUNIOR CHAMPIONSHIP / CROFT

What would your advice be for anyone aspiring to race? - “Join a team, practise and get better.”

RACE 2

P5 - Ben Doughty

NC - Jasmine Sha

P9 - Billy Blockley

DNF - Harry Engle

P11 - Jensen Bell

DNF - Hadley Simp

P14 - Flame Airikkala

DNF - George Fox

Though racing is a challenging sport, and many didn’t finish the race, Billy overcame those challenges, outraced 13 other participants and drove brilliantly. Anybody, here at BBG, aspiring to join any races or to compete in any sport should immediately rid themselves of any doubt –Billy has set an amazing example for the rest of us and has sufficiently proven, with his accomplishments, that if you try hard, you can and *will* achieve.

I hope this week’s article has inspired you or taught you something – either way, Billy deserves a big well-done from us all.

The Monarchy- Republicanism

Reporter:
Cerys Barson

Last week my article was about the coronation of King Charles III, and I outlined the historical event and how we had not had a coronation since 1953, when public opinion was vastly different. However, there was a lot of controversy around the event and the monarchy over the coronation weekend.

Republicanism is a political movement that wants to replace the monarchy with a republic. Supporters of the movement are called Republicans, who seek alternatives to a monarchy, including an elected head of state. England has been a republic before, but collapsed in 1660, and the monarchy was restored.

Why are people against the monarchy?

There are many reasons, but here are just a few:

- **Money-** The King's coronation was estimated to have cost approximately 100 million pounds, although the actual cost hasn't been shared. Many people argue that this money could be spent on more critical issues. The coronation was not paid for by the monarchy, it was taxpayers' money that was used. The coronation also happened at a time where the cost of living is getting increasingly more expensive, tightening a grip on people's finances. Many questioned whether so much money should have been spent and would have been more beneficially used to support schools and hospitals.
- **Their pay-** Many people resent the amount of money the Royal Family have and receive, because the family do a different sort of work to the average person in Britain. Even though they use lots of their money on their property maintenance, the Royal Family still get paid millions every year.
- **Brand-** republicans say that the crown has turned into a brand rather than a ruling body. The country isn't being run by the monarchy anymore, as all decisions are made in Parliament, which the Royal Family can only advise on; they do not get a vote and cannot overturn parliament's decisions.
- **Birth Right-** Others think that such an important job shouldn't just be given to someone because of the family they were born into.
- **Media-** republicans think that the articles written about the monarchy are airbrushed and sometimes not true. Many think this is due to Royal Propaganda. Of course, this can't be proved, but to many, it seems that a lot of people will applaud the monarchy and their way of life.

At the coronation, protesters, who had spoken to the police about the protest four months in advance, were arrested. Hours before the King was supposed to arrive in Westminster Abbey, the police arrested six protesters. The police now 'regret' arresting them. They claim they used the Public Order Act 2023, which was just passed last week, to make the arrests. Rishi Sunak said the people had the right to "protest freely but peacefully." He also said that it is right that the government gave the "police such powers to tackle the disruptions."

Recent data shows that so far 41% of 18-24 year olds say Britain should have an elected head of state, whereas only 31% say the monarchy should continue as it is. In general, more than one in four people now support abolishing the monarchy. Support for retaining the monarchy stands at 60%, well below 75% which was the previous figure ten years ago. Older people still strongly support the monarchy, but in the future, they won't be the ones initiating change in this country. It will be the younger generations, like the students at BBG.

I feel that it is important to have a balanced view of the monarchy, as last week I wrote about the historical importance of the monarchy. This week I have given a balanced opinion of why others believe the monarchy should no longer exist or have the same privileges. It is important that people are educated about both sides of the issue, so that the right decisions are made. Perhaps is the right time to engage in a debate about the future of the monarchy, so it has the best outcome for our country.

BBG PATHFINDERS

#LEADTHEWAY

Thank You
Parents

It is not overstating it to say that today – one of the best days of the calendar year – would not be possible without your support and input.

Thank you to everyone who wrote, emailed, printed pictures, made cards and got involved this afternoon. It meant the world to your children – and we can't thank you enough.

BBG PATHFINDERS

#LEADTHEWAY

It has been an AMAZING journey with the Pathfinders this year – and the progress championship has been nothing but awesome. We are so proud of how hard they have worked, and so pleased to see how well they have taken on board the opportunities on offer for them. A very well done to all year 11 for all of their hard work.

THE NIGHT BEFORE EXAM PREPARATION

PATHFINDERS

#LEADTHEWAY

Did you know?

Research shows that the night before an exam is a stressful time and that cramming the night before an exam only leaves pupils feeling frustrated and anxious. Studies show that getting enough rest is vital to consolidate new information, so it is best that pupils get a good night's sleep and wake up feeling refreshed.

By the time it is the night before the exam, all revision should have been done. This is the perfect time for pupils to calm their nerves and make sure that they are ready to enter into their exam well-rested and confident in their ability.

Further research shows that limiting distractions can help pupils think better and reduce stress. Distractions include social media, technology, the internet, contact with people who may cause any upset etc. Research also shows that eating a nutritious meal, exercising or completing a relaxing activity the night before an exam can all contribute towards being in the right mindset to succeed.

What can you do?

- Encourage your child to review their revision and notes, covering topics one by one. Late night revision will not be effective so help your child to refresh themselves with what they need to and then to take a break so they get a good night's sleep.
- Encourage your child to have a relaxing evening routine the night before an exam, which could include eating a good meal (but not to try anything new), reading a book, going for a walk together, doing some exercise or having a bath. Be mindful that your child will be feeling stressed: provide them with comfort and reassurance and support them to be as calm and relaxed as possible.
- Help your child to get everything ready in preparation for their exam, such as clothes they need to wear, bag, pens, equipment, revision notes, water bottle, snacks etc. This will eliminate any unwanted stress on the exam day. Make sure your child has a breakfast ready to eat the next day as well.

BBG PATHFANDERS

#LEADTHEWAY

Some of the most straightforward supports for students as they prepare for exams are also the most fundamental – sleep, food, relaxation. We can help you with FOOD – in our series showing you the Pixl 'Power to Perform' recipes that are brain boosting AND delicious!

GINGER AND CORIANDER CHICKEN

**GINGER AND CORIANDER CHICKEN, LENTIL DHAL, FLATBREADS.
FEEDS 4 AS AN ALTERNATIVE TO THE TAKE AWAY.**

WATCH
THE
VIDEO!

FOR THE DHAL:

150g cup dried red lentils, rinsed under running water
235ml water or chicken stock, or just enough to cover the lentils in your pan
1/2 tin chopped tomatoes
1 teaspoon turmeric
1 teaspoon cumin seeds
1 teaspoon salt
1 teaspoon sugar
1/2 teaspoon chilli powder
Juice 1/2 lemon

METHOD:

Combine all the ingredients and cook over a medium heat (little bubbles) until the lentils are soft.

FLATBREADS:

150g plain flour
15g yeast
75ml warm water
1 teaspoon toasted fennel seeds
2 tablespoons olive oil

METHOD:

In a food processor, add the flour, oil, yeast and water, and then pulse until it forms dough. Put the dough in a bowl and add the cooled fennel seeds, quickly knead them in, cover the bowl with cling film and leave somewhere warm until the dough doubles in size. When it has doubled in size, place a frying pan over a medium heat, tip out the dough and pinch off golf ball sized pieces; roll them in your hands then roll flat with a rolling pin. Place them in the pan over a medium heat, a griddle pan is best, and gently cook, the thinner you roll them, the faster they cook. Once browned on one side, flip them over and finish cooking.

FOR THE CHICKEN:

4 skinless chicken breasts or thighs
25g fresh grated ginger
1 bunch of coriander, leaves picked and stalks chopped, keep the leaves for decoration, use the stalks for this bit!
30 ml of vegetable oil
A good pinch of sea salt and pepper to season

METHOD:

Mix all the ingredients, including the chicken, in a bowl and leave to soak for 20 minutes. To cook the chicken, heat a frying or griddle pan and brown the chicken on all sides, before reducing to a medium heat and continuing to cook for 15 to 18 minutes, make sure chicken is thoroughly cooked.

TO SERVE: Place the sliced chicken onto a warmed plate, dhal on the side, garnish with the coriander leaves, maybe a flatbread or two.

This dish has been specially created by celebrity chef, Mark Lloyd.

The Speakers Trust - Speak and Be Heard

This week 62 Year 10 students took part in effective communication workshops delivered by Dominic Waldron of the Speakers Trust Organisation. The day was designed to empower BBG students, teaching them strategies and techniques to build confidence when speaking in a range of scenarios, including college interviews, the workplace and in front of audiences. Students were with their English teacher and class, working in small groups and speaking in front of each other and Dominic. Workshops took place on Wednesday and Thursday this week.

MAKING A DIFFERENCE.

We are committed to making a meaningful difference to young people's lives by developing their skills, confidence and sense of agency.

Training for all.

Anyone can improve their public speaking skills and confidence by signing up for our video play courses.

WHAT WE DO.

We unlock the potential of young people by building their confidence and improving their ability to express themselves verbally.

We provide these essential communication skills for some of the most disadvantaged young people in the UK, including the poorest young people and those in public referral units.

ITS ALL ABOUT THE FIELDWORK

The other half of Year 10 went on their fieldtrip a week last Friday, and despite the poor weather didn't moan and got stuck in with the work! Well done Y10!

Year 7 students are continuing their new topic of Urban Environments. This week students have been looking at Singapore, a city that is running a lot more sustainably compared to others. Students show a lot of interest and are impressed at the lengths Singapore go to, to help the environment and help reduce waste and pollution

Year 9 students have hit the ground running in terms of their effort this week, they started environmental issues and mainly looking at animal welfare and some of the cruelty of the past and the unfortunate present. Did you know there are only two white rhinos left on this planet and both are females!?

Proud to be a

WHY CAN'T A NOSE BE 12 INCHES LONG?

BECAUSE THEN IT WOULD BE A FOOT!

Performing Arts

At this time of year, in a normal kind of year, the GCSE coursework is all complete and sent off to the moderator, and our attention turns to another incredibly important job... GRADUATION!

If you have been lucky enough to attend one of our previous graduation ceremonies, you'll know that one of the highlights of the event is the music. Year 11 students start thinking of their graduation song months in advance, and the long list gradually grows shorter as the year progresses. The lyrics of the song have to be just right, and meaningful for the year group, and we've had some particular tear-jerkers over the years.

Sometimes the performers take no persuading at all, and the ensemble is huge, sometimes the students are a little more timid about performing in front of their friends.

Our first graduation was in 2017. The student performers were very reluctant, having never seen a graduation ceremony before. We asked them, they said no. We asked again, they still said no. We wrote to them, they warmed to the idea a little. We spoke to their parents, they became a little bit more keen on the idea. As Lucy wrote in her card after the event, however, they were very glad that we didn't give up on them! Their performance of *For Good* from the musical *Wicked* brought the house down and there were more than a few tears in the audience.

2018 was slightly easier. The GCSE Music class that year included a number of keen and confident singers. As often happens, the song was chosen (*I'm Gonna Do It All*), it was on a perfect theme, and we were just about to start rehearsing when we completely changed our minds, and *A Million Dreams* from *The Greatest Showman* took its place and fitted the year group perfectly.

2019 was another easy one. The group was the biggest yet, and the song was a simple choice- *Seasons of Love* from the musical *Rent*. That's the one that reminds you that there are 5 hundred and twentyfive thousand, six hundred minutes in each year and we should make the most of them all.

Then 2020... the song was chosen early this time- in fact I believe it was chosen before the students even began Year 11. Ironically this was the year that we were the most organised and prepared and sadly the school year did not end as we would have liked and the students left school with a very special and memorable assembly but no graduation and no music.

2021 was tricky. More than two years of covid had had an effect on self-confidence, and although we had a fantastically musical year group, we went with a soloist for that year's music. Maisie Watts sang *I'll Always Remember You* by Miley Cyrus, and was astounding. What a voice, and the perfect song. Then another soloist, Jasmine Pinder brought us to tears a year later with her absolutely stunning rendition of *These Halls*- the most perfect song choice for 2022.

And so to 2023! We thought we had the song chosen, but these year's singer had ideas of her own and has chosen something which means something to her. We are sure she it will be perfect on the day!

finally singing at graduation. Although we were reluctant at first, I am so happy that you didn't give up on us and made us do it - because now I am so happy and proud that we did.

2017: Lucy Ormondroyd, Millie Firth and Hollie Smith. "Because I knew you, I have been changed for Good".

2019: How do you measure a year?

2021: Maisie Watts
I'll Always Remember You

2022: Jasmine Pinder
These Halls

BBG SCIENCE

Year 7 have been looking at photosynthesis in plants. In order to see the oxygen being made, we decided to use an aquatic plant so the gas bubbles could be counted. This enables us to see how fast photosynthesis happens in different conditions. We varied the amount of light the plant received and counted the number of bubbles every minute.

As well as the pondweed we also encountered a few aquatic invertebrates. Here you can see a snail, a water louse and several damselfly larvae. The larvae will eventually hatch out to be colourful damselflies.

Year 10 have been investigating osmosis in plant tissue. This is the movement of water across a membrane. We placed potato chips in solutions of sugar with a range of concentration. We then observed the change in mass in each chip. By graphing the results, we can see the concentration where the chip did not change mass, and this tells us the concentration in a potato cell. This involved calculating % change in mass so we could compare chips with different starting masses. Along the way we discussed density as we could see some chips floated and some sank. We also noticed a difference in the chips turgidity as some became stiffer as they took on water by osmosis and others became floppy as they lost water.

THOUGHT OF THE FORTNIGHT

Beginning 1 May 2023

Never underestimate the difference **YOU** can make in the lives of others. Step forward, reach out and help. This week reach to someone that might need a lift.

— Pablo
VERYBESTQUOTES.COM

Discussion points

What does the above quote mean?

Is it talking about only physically helping somebody?

If you saw a person fall in the street how would you help them out? What about a person in class that felt sick. What might you do?

What about a friend who used to be bubbly and the centre of the party, who is now quiet and withdrawn – would you know how to help them? What might you do to support that friend? Do you know who in school you can talk to?

One in eight children aged 5-16 are likely to have a mental health problem. Would you know how to support a friend who may be experiencing this? Use [the](#) website to navigate around different techniques you could use and support that is available.

What have you learnt today that might help in the future?

**National
Online
Safety**

**Download your Free
Online Safety App for
Parents & Carers**

Be #OnlineSafetySavvy

Keep up with the latest apps games and tech your children are using, with the worlds most comprehensive online safety app for parents.

On the National Online Safety app you'll find:

- ✓ Hundreds of online safety guides on the topics you need to know about - from screen addiction, fake news and trolling to hacking, social media influencers and sexting;
- ✓ An online safety training course for parents - developed by our experts and delivered by online safety ambassador Mylene Klass;
- ✓ A user-friendly interface with increased functionality - find exactly what you need, when you need it;
- ✓ The option to get notifications to your phone as soon as new content becomes available - so you can stay up-to-date with the latest online crazes (and risks);
- ✓ An in-app voting system so you can help determine the subjects you'd like us to cover in future;
- ✓ The facility to personalise your content by favouriting key resources.

**Teen
Sleep
Hub**

WELCOME

HOW TO IMPROVE THE SLEEP OF YOUR STUDENTS

In Autumn last year, we launched our new Teen Sleep Hub, as part of our Teen Sleep Matters campaign, and it has been an amazing success so far with so many of you getting involved in sharing the information we supplied. We have also had lots of support from the Mental Health Foundation and Royal Society for Public Health.

Covid-19 continues to impact on the health and wellbeing of young people, in particular around their sleep and mental health. Even with the return to school, we are still living in uncertain times and young people are still suffering with isolation, learning at home with bubble closures, out-of-school activities suspended and routines being altered dramatically, it has been, and remains, extremely challenging.

Since we last made contact we have been working hard to continue to push this campaign and we have now launched a Live Chat service on our **Teen Sleep Hub**. This facility is available on Tuesday and Thursdays from 6-8pm so young people can chat about any issues they are having with their sleep with one of our trained sleep practitioners. Please do direct your students to this and even inform parents of this service.

In this second pack you will find

- A selection of NEW posters promoting the Live Chat that can be emailed out to students and parents and, when normally resumes, can be printed and put up in classrooms, toilet facilities and other communal areas
- Social media graphics that you can use on your social channels and website to direct students and parents to the Teen Sleep Hub

As a reminder, the Teen Sleep Hub is a hive of information around sleep aimed at teens (not their parents) and includes a downloadable eBook and a series of top tips videos. We were supported on this project by our amazing Youth Advisory Panel, made up of young people aged between 13 and 19, across the country. It has been a great success so far with over **17,000 downloads of the eBook**, proving that young people want the knowledge to help them improve their sleep.

Thank you for your support. Please do get in touch if you have any questions or would like to know more.

SPORTS STAR OF THE WEEK

Freddie Paver

Outstanding attitude to sport generally and this week it was great to see Freddie participating again after an injury. Well done Freddie.

Leighton Appleyard

Excellent effort and attitude towards the mile run. Leighton completed a fantastic amount of laps and didn't stop running for the entire period. Good work Leighton, keep it up.

Dylan Wilkinson

Great attitude and effort during the mini marathon

Georgia Ainsworth-Hare

Smiling her way through the mini marathon!

SPORTS STAR OF THE WEEK

**Spencer
Worthington**

Great running whilst
completing the mini
marathon challenge

Cooper Crick

Always giving 100% in
every PE Lesson

Lily Pailing

Fantastic effort in the
800m

Hanifa Alade

Good fielding in
rounders

SPORTS STAR OF THE WEEK

**Charlotte
Robertshaw**

Good contributions to
Pre-Option PE

Jacob Gagg

Good effort in GCSE PE

Georgia Marsden

Good effort towards GCSE
PE

Dan Hirst

Good effort towards GCSE
PE

SPORTS STAR OF THE WEEK

Poppy Fielding

Fantastic
sportsmanship

Megan Bates

Brilliant effort in PE

**Maddie
Goldthorpe**

Excellent effort and
attitude towards GCSE PE

Masie Pye

Excellent effort and
attitude towards GCSE PE

EXTRA CURRICULAR TIMETABLE SPRING TERM 2023

MONDAY

Times	Club/Activity	Year Group	Teacher	Venue
2.30-3.30	Netball	Years 7-11	All PE colleagues	Changing room meet
